1

#### **Intuitive 10" HD Android touch display, easy to select 30+ beverages by pages**

easy operation

- saving time and costs in the qualification of personnel or users

2

#### **3 friendly UI modes: Standard/Self-service/Professional for different scenerios**

variability of use

- return from the possibility of use in a wide range of gastro operations

3

#### **Separate hot water outlet for pure tea, steam wand can be optional**

use also for options other than coffee preparation

- return from the possibility of use for other purposes - e.g. tea, cocoa, and others

4

#### **Accurate grinding system and nice extraction brewing system**

professional products for the most demanding consumers

- return from the satisfaction of the most demanding customers and users

5

#### **Automatic milk system cleaning functions for maximum hygiene**

beverages without defects, impurities - meet hygiene standards

- saving time and costs in maintenance

6

#### **4L water tank and main water connection available**

variable water source for beverage preparation

- possibility of using water from the water supply system, bottled water or tap water

7

#### **Well-structured statics of beverages consumed and maintenance record**

automatic operator's own overview of the device

- saving time in inspections, cleaning and servicing of the device

8

#### **Optional MDB port for payment device connection**

possibility of use also for partially self-service operations

- saving human labor, costs and time

9

#### **Optional WIFI/4G module to connect IOT platform to monitor the machine real time status**

absolute overview of the device remotely

- saving human labor, costs and time
