Product benefits

Probe for tabletop induction cooker

Model	SAP Code	00038308
S RIB	A group of articles - web	Accessories

1

Possibility of pairing with an induction hob

remote display of values in real time

- Higher accuracy and comfort when cooking

2

Possibility of attaching directly to a pot or pan

Stable location without the need to hold and flexibility when using with different types of pots or saucepans

- higher safety and free hands for other cooking activities

3

Possibility of using directly as a thermometer or probe

accurate measurement of the food core

- Accurate temperature measurement instead of estimates

4

Miniature design with maximum possibilities of use

compact dimensions, modern design

- easy handling and storage, suitable even for small containers

5

Sharp and long tip

Penetrates even into large pieces of food,

- Accurate desired cooking results, satisfied customer

6

Easy to operate

intuitive operation, quick start,

- Suitable for less qualified users, saving time and costs when training staff

Technical parameters

Probe for tabletop induction cooker

Model	SAP Code	00038308
S RIB	A group of articles - web	Accessories

1. SAP Code:

00038308

2. Net Width [mm]:

290

3. Net Depth [mm]:

25

4. Net Height [mm]:

25

5. Net Weight [kg]:

0.06

6. Gross Width [mm]:

345

7. Gross depth [mm]:

95

8. Gross Height [mm]:

35

9. Gross Weight [kg]:

0.15

10. Max ambient temperature [°C]:

250

11. Handles:

Yes

12. Additional information:

Bluetooth probe that can be connected to the RIB 35 T. Suitable for confectionery and other industries where precision is needed.

13. Exterior color of the device:

Grey

14. Recommended accessories:

00038011

15. Construction type of device:

Table top
